

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. - 16. (Canceled)

17. (New) A server apparatus comprising:

an information provider which receives an information from a subscriber apparatus, the information showing whether output signal outputted from said server apparatus is provided to a display terminal or a recorder in said subscriber apparatus;

a subscriber mode recognizer which discriminates whether said output signal is provided to the display terminal or the recorder based on the information;

a charger which charges a different amount among a) in the case that the output signal is provided to said display terminal and b) in the case that said output signal is provided to said recorder, based on the recognition of said subscriber mode recognizer.

18. (New) A subscriber apparatus according to claim 17,  
wherein said charger charges a larger amount when the output signal is provided to said recorder than to said display terminal.
